

Hon. Prime Minister's Awards for Excellence in Public Administration 2022

Swasth Bharat through Health & Wellness Centers (Category)

Latur District of Maharashtra State

Shri Prithviraj BP
District Magistrate, Latur

Background

Latur is a city in the Maharashtra (Marathwada region). The city is the tourist hub surrounded by many historical monuments including Udgir fort and Kharosa caves. Latur is educational hub and known for Latur Pattern. It is a drought prone area with shortage of water hence it adversely influencing the agriculture economy resulting in low human development index ((HDI 0.663 (2011)). This background underlines the need of various services up to the root level beneficiaries specially in health.

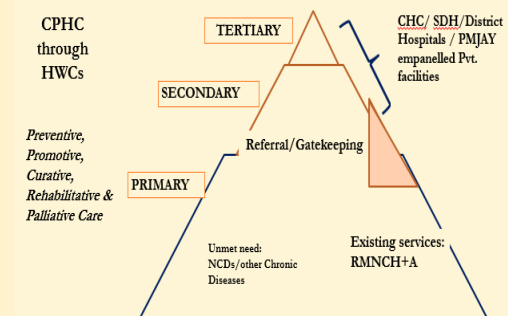

As the vision of India to provide Expanded Comprehensive Primary Health Care with range of services spanning preventive, promotive, curative, rehabilitative and palliative care through Ayushman Bharat Health and Wellness Centres (AB-HWCs) to address critical issue of access to health care and reduce Out of Pocket Expenditure (OOPE) of people.

Also addresses an epidemiological and demographic transition, where non-communicable diseases such as cardiovascular diseases, diabetes, cancer, respiratory, and other chronic diseases, account for over 60% of total mortality.

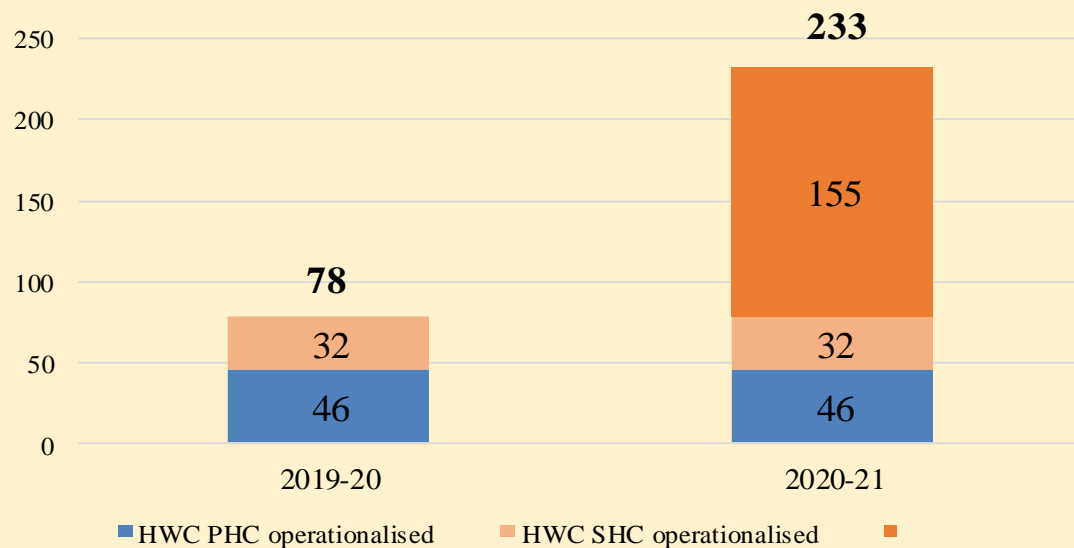

AB-HWC initiative found really helpful in the district like Latur to deliver the services to all for the Swasth community.

AYUSHMAN BHARAT – HEALTH AND WELLNESS CENTRES

Communicable Disease Surveillance Through IDSP

Type of Surveillance	(2021-22) % of Average Reporting Units	Latur District Ranking in Maharashtra State
1. Syndromic Surveillance (S-Form Daily) for HWC-SC	100%	 Rank 1
2. Presumptive Surveillance (P-Form Daily) for HWC-PHC	100%	
3. Laboratory Surveillance (L-Form Daily) for HWC-PHC	100%	

Impact of HWCs in improving qualitative indicators

Positive impact after operationalization of HWCs in the district on some qualitative RCH indicators like ANC registration, ANC Reg <12 Weeks, fully protected pregnant women, fully immunized children and tuberculosis case notification.

Expanded range of services

✓ **Capacity Building
MO/CHO**

✓ **Rollout Date
01 April 2022**

- **Eye Care-** All HWCs are equipped with primary eye care e.g. vision chart, torch with basic training of MLHP. During this year identified 17069 suspected cataract cases and all are operated.
- **Care for mental, neurological and substance abuse disorders-** Under mental health programme regular IEC, house to house survey and weekly mental health clinic at all HWC facilities with flag name **Manshakti Clinic**. Identified 2253 cases of depression and 5009 addiction cases and treated. Special efforts taken for mentally disabled through DEIC Govt. institute (1366 beneficiaries benefited till date referred from HWCs areas) and PPP project **UMANG** (Institute of Autism and Multi-disability research center) nearly 3000 pts served.
- **Elderly Care-** Under the flagship of **Thodese Maibapsathi Pan** screened 250380 elders. Arranged 522 health camps at every large village and given elderly health care to 23207 elders and 4818 were given referral services.
- **ENT care-** All HWCs are well equipped for primary ENT services
- **Emergency and trauma care-** Emergency and trauma care for injuries, accidents, snake and animal bites is practiced in all HWCs.

Supportive efforts to strengthen the HWC services

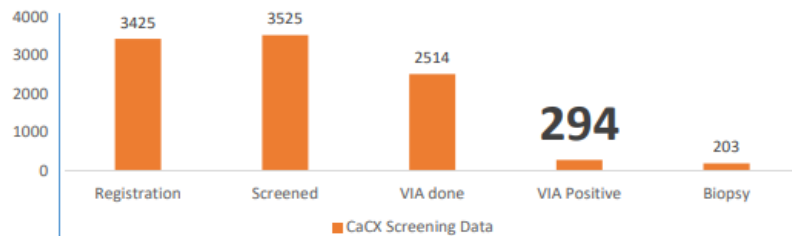

- ✓ Timely recruitment of MLHP (CHO), Capacity building and incentives given regularly (Rs 3.15 Cr in 2021-22 and Rs. 2.19 Cr in 2022-23).
- ✓ Support to HWCs through provision of IT services , diagnostics and drugs.
- ✓ Allocation of sufficient funds through DPC (19-20- 32.15Cr, 20-21- 27.83Cr, 21-22- 51.47Cr)
- ✓ Special efforts by reaching to unreached- visit of MBBS MOs to HWC SCs weekly on Thursday for diagnosis, to take on treatment NCD patients and to give follow up and counselling to known cases.
- ✓ Provision of well-equipped 50 ambulances to all HWCs (PHC) through 15th Finance and through Hon MPLADS/ MLALADS fund for free referral.
- ✓ **Quality Care :-** Support in accreditation/ qualifying in NQAS and Kayakalp of HWCs.
 - In 2021-22 64 HWCs SC selected in kayakalp [**max in the state**] & 24 (50%) HWC PHCs achieved the award in kayakalp.
 - 5 HWC PHCs accredited in NQAS & 9 PHCs proceeded for national NQAS assessment

Innovation – Sanjeevani Abhiyan (*Cancer Free Life – Prosperous Life*)

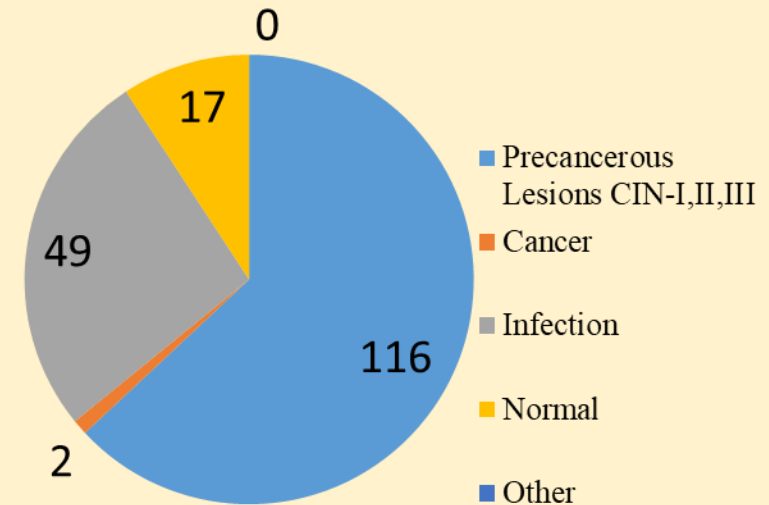

In non communicable disease screening the cancer screening is important aspect but due to various myths and cultural issues the percentage of women to get checked specially in Ca Cx and breast was negligible. So an innovate mass level campaign is tried for IEC , Training and screening. This activity supported the HWCs performance in positive manner. 342000 women above 30 years are contacted through home visits and out of that 3958 suspected pts found. Out of that 3425 pt mobilized with free transport , food and free investigation at selected HWCs center and Block level RH SDH with financial support from local Panchyat Raj institute.

In Block level diagnostic camps we examined 3425 suspected common cancer patients and performed 2514 VIA tests, out of which 294 were VIA Positive (11.69 %) with the help of gynecologist.

Sr no.	Place Of Camp	Total Registration	Screening	VIA Test	VIA Positive	Ca Breast Suspect Examined	Ca Breast Suspect	Biopsy	Pap Smear	Prolapse/Uterine Surgery	HIV Positive
	Total	3425	3425	2514	294	412	79	203	141	89	6

Biopsy Result (N=184)

Thank You
